PROFESSIONAL SUMMARY

Front-End Developer with hands-on experience in developing scalable, high-performance web applications using React, TypeScript, and JavaScript (ES6+). Strong experience in enterprise and banking projects, Agile/Scrum environments, CI/CD pipelines, RESTful APIs, and modern front-end architectures. Focused on clean code, SOLID principles, performance optimization, and maintainable component-based design. Known for strong communication skills, analytical thinking, reliability, and effective collaboration with cross-functional teams and stakeholders; delivered production-ready enterprise applications used by major banks across the full development lifecycle. Experienced in collaborating with distributed and cross-functional teams.

TECHNICAL SKILLS

Front-End Technologies:

React, React Native, TypeScript, JavaScript (ES6+), HTML, CSS, SCSS, Tailwind, Material UI (MUI), Ant Design

State Management & Architecture:

State Management, Context API, Redux, Advanced React Patterns, Component Architecture, SOLID, OOP, BDD, Unit Testing

APIs & Performance:

REST APIs, API Integration, Performance Optimization, Responsive Design, Cross-Browser Compatibility

DevOps & Tools:

Git, GitHub, GitLab, GitHub Actions, Jenkins, CI/CD Pipelines, SonarQube, Docker

Agile & Collaboration:

Agile, Scrum, Jira, Confluence, Figma, Collaboration

Design Tools (basic):

Figma, Adobe Photoshop, Adobe Illustrator

PROFESSIONAL EXPERIENCE

KEY YAZILIM — Front-End Developer / Frontend Engineer

Nov 2023 – Present

Projects/Clients: Halkbank (primary), public sector and major banking clients (including Land Registry Directorate of Turkey) — valuation platforms (Invex, Hypotex, Propex)

- Developed **enterprise-level real estate valuation web applications** used by major Turkish banks.
- Built scalable, responsive, and cross-browser **React and TypeScript** user interfaces.
- Integrated **RESTful APIs** and collaborated closely with backend teams.
- Designed and implemented features using **BDD** and modern React patterns.
- Delivered features to production via CI/CD pipelines (GitHub Actions, Jenkins) within Agile sprint cycles.
- Improved front-end performance and load times through optimized component rendering and code refactoring.
- Increased code maintainability and reduced defects by applying SOLID principles and regular code reviews.
- Contributed to consistent on-time feature delivery and supported production applications used by internal and external users.
- Worked in Agile/Scrum teams with Product, DevOps, and Design stakeholders.
- Communicated effectively with cross-functional teams, supported junior developers, and ensured reliable feature delivery in fast-paced Agile environments.

Freelance — Front-End Developer

Mar 2023 – Jun 2023

- Developed a full-featured **e-commerce web application** using React and JavaScript.
- Focused on performance optimization, responsive design, and usability.
- Integrated APIs and resolved backend integration issues.

EDUCATION

Uludağ University — Bachelor's Degree in Computer Education & Instructional Technology (2011 – 2016)

Ahmet Çiçek Anatolian Technical High School — Web Technologies & Software (2007 – 2011)

CERTIFICATIONS

Advanced React Certificate — Scrimba (Dec 2025)

Front-End Developer Training Program — Techpro Education (2022 – 2023)

LANGUAGES

Turkish (Native) | English (Upper-Intermediate)
